Memo No: - Apr210409

Date: - 09/04/2021

## TO WHOM IT MAY CONCERN

Certificate of conformity to regulation and structural safety of school building.

Details of the building for which the certificate is being issued.

Name of School :- DAV Public School  
Location :- Tohana Road, Ratia  
Distt. Fatehabad (Haryana)  
125051

Covered Area (sq.ft)	Roof Type	Floor Usage	Structure Components weather designed as per Indian Standard Code (Y/N)
50000	R.C.C.	School	Yes

## CERTIFICATE

I have inspected the school building of above mentioned school on dated 08/04/2021. Structure of the school building is in good condition. Brick walls are constructed with cement mortar and roofs are of R.C.C. slab. All the rooms are well ventilated and airy. Floors are constructed with first class material. School building falls in seismic Zone-III. Structure of school building (i.e. foundation, column, beam, etc) is designed as per IS codes with considering all kind of load combinations.

The building is found in safe and sound condition.
